

MY DREAM DESTINATION

LONDON

INTRODUCTION

The United Kingdom is one of the most popular destinations for international students. Students from all over the world travel to the UK every year with hopes of getting a degree from reputed universities. Study in UK is a great way to expand your knowledge and at the same time you can enjoy a complete new culture. Degrees from the UK universities are recognized all over the world. So even if you decide to go back to your home country, you will be rewarded with bright and promising prospects. More than 500,000 international students enrol in the UK every year, making it the world's second most popular destination for higher education, after the US.

WHY IT IS MY DREAM DESTINATION

Some of the best cities to study in the UK are London, Edinburgh, Birmingham, Manchester and Glasgow. The UK is also known for universities that are some of the top ones in the world such as University of Oxford, University of Cambridge, King's College, London, Imperial College, London, London School of Economics, University of Manchester to name a few. These universities are accepted internationally by governments as well as employers.

- Personalised expert support from prospective study inquiry through to graduation
- A vibrant and diverse community with variety and equality in opportunities
- Seamless education-related operations and services continuously delivering an excellent experience
- Research-informed curricula preparing students for future employment and lifelong learning.

OPTIMUM FOR HIGHER EDUCATION

Along with the factors mentioned above, the support from the UK government has made this a favourable destination for higher education. It introduced friendly policies which supports the international students' community in the country. The 'graduate immigration route' announced last year allows you to remain in the UK for two years after you complete your studies. The policy claims to permit the eligible students to avail a post-study visa that will in turn let you scout for work and employment potentials for a duration of two years after completion of your studies. Another recent development regarding the UK immigration system gave a reason to Indian students and professionals to cheer amidst the uncertainties of Brexit and other concerning activities.

The points-based immigration system was announced to attract the brightest and best talents from all over the world. This new system will help STEM students from India and other parts of the world get a permanent residency faster. This system will award points (for specific skills, profession, salary, qualifications and other relevant parameters) to individuals applying for permanent residency. This meritocracy-based model is extremely progressive as it provides an equal opportunity to build a career in the UK.

BEST UNIVERSITIES

London's universities offer around 10,000 courses. You will find several large multi-faculty universities in London which provide courses in a wide variety of subject areas. Additionally, London hosts many considerable smaller, specialist institutions. The subject guides help you find the best universities for the subject you want to study.

The universities in London are located in various parts of the city. Students can choose to study in central London in proximity to the museums and attractions, or students might decide to enjoy a quieter life living in outer London. The city's efficient public transport system ensures residents have easy access to the city centre, irrespective of their [residence in London](#).

EASILY AVAILABLE STUDENT ACCOMMODATIONS

London is a very student-centric city and hence has several privileges and facilities lined up for students. There are several discount cards, [student-specific accommodation](#), plenty of student-centric activities and much more. London has a vast number of universities and colleges often frequented by students from across the world. A city that has heavy student traffic has to have things in place specifically for students; otherwise, the students may lose interest in choosing that particular city for education purposes. London has smartly crafted itself to fit all the student population demands and needs. London has a vibrant student accommodation market; it proffers privately owned houses to rent, college and university-owned residence halls and PBSAs.

FULL SUPPORT TO INTERNATIONAL STUDENTS

Every institution has a department dedicated to serving international students and answering inquiries concerning tuition, housing, and academic support. The UK Council for International Student Affairs, which serves as an advisory body for international students, has a beneficial website for international students with resources for mental health support, housing, employment, and immigration.

Though the cost for studying in the UK is considered to be on the higher side yet it is much lesser than that of the US, Australia and other parts of Europe. The tuition fees vary quite a lot and largely depend on the field you choose to study and the university you apply for.
